

Sandra Gufler

As a former head chef I perform very well in high-paced environments and adapting to new challenges and teams is what makes my day. I am an open-minded, proactive and team-oriented person who thrives on problem solving and societal contribution.

Languages

English - fluent

German - native

French - proficient

Italian - intermediate

Swedish - beginner

EDUCATION & TRAINING

Full Stack JavaScript - School of Applied Technology </salt>

May 2022 - July 2022

At the beginning of this year I got the great news that I was chosen from more than a thousand applicants to attend the </salt> JavaScript Bootcamp. I got familiar with TDD, agile working methods, mob programming and the tools modern fullstack developers work with. I know the principles of Clean Code and I understand the importance of CI/CD. We spent more than 500h coding and learnt how to apply what we learnt during the lessons. The course prepared me for a fast changing environment.

Treehouse Course, Codecademy Course - Javascript for Beginners and Fullstack JavaScript

March 2022 - now

Online courses to learn about git, functional programming, node.js and npm, the basics of SQL, and much more. The courses took more than 50 hours to be completed.

Studies at different Universities - Economics, German and Pedagogy

September 2012 - September 2016

WORK EXPERIENCE

Head Chef - Perronnord

Nov 2019 - March 2022

At my former workplace I led a team of four people and was responsible for dishes that were sent out of the kitchen. I created, planned, organized and made sure everyone was on the same page. I am very stress approved and know how to prioritize my tasks. I love to connect with people and I am not afraid of getting help when I need it. If you are looking for a loyal and committed employee, then give me the chance to meet you.
